

## **FIPRA Switzerland appoints Peter-Carlo Lehrell as International Strategy Advisor**

**Bern, 1.10.2021. Peter-Carlo Lehrell will become International Strategy Advisor at FIPRA Switzerland from 1.10.2021.**

Before establishing the FIPRA Network in 2000 and following an education in the United Kingdom at Harrow School and University College, Durham, Peter-Carlo worked at the European Parliament, then in finance, insurance, and senior consulting roles, and always in functions close to government relations. Peter-Carlo has multiple synergies with FIPRA Switzerland as he also serves as a Strategy and Business Development Director to the Oxford founded international economic consultancy Oxera which in November will, under his guidance, be present at the United Nations Climate Change Conference - COP 26 - on Heads of Governments Day. In addition, Peter-Carlo is Chairman and Director on several company and advisory boards and will bring rich experience to FIPRA Switzerland.

Dominique Reber, Partner at Hirzel.Neef.Schmid.Konsulenten, who himself succeeded Peter-Carlo as President of the FIPRA Network, comments:

*"We are proud that the Founder of our network joins our team in Switzerland. Peter-Carlo Lehrell is one of the world's most experienced public affairs consultants."*

Peter-Carlo Lehrell comments:

*"I am very proud to have a chance to work in Switzerland which is one of the most internationally focused, free and stable economies in the world. FIPRA Switzerland is one of the most trusted players in the public affairs space, not just nationally but increasingly also internationally. I look forward to working on the company's international strategies at a time when business and government alike faces existential global challenges such as climate change."*
